About This Game

Hinedere Beat is a pseudo 8-bit, quasi-cinematic platformer with minor stealth elements and visual novel-style storytelling. Much of the platforming is parkour-influenced, progression is linear, and its story is one of cynicism.

Features:

- Several parkour-inspired platforming challenges with minor stealth and puzzle elements
- Visual novel-style storytelling
- Pixel-art visuals
- Jazzy hip-hop soundtrack
- A raw, retro-styled gaming experience with a dream-like, abstract vibe
- Supports Xbox One and Xbox 360 Controllers (recommended)

Title: Hinedere Beat
Genre: Action, Adventure, Indie
Developer:
Blaze Epic
Publisher:
Blaze Epic
Release Date: 17 Sep, 2018

b4d347fde0

English

It has a crisp, consistent sort of platforming that I find quite pleasant, with areas that don't force you to replay sections you've already beaten (even to the extent of making it so when you backtrack through what should be the same areas, they are different).

I can't tell if the writing is inane or a deep philosophical discussion on the nature of social interactions: I can imagine bored teenagers being forced to read passages from it in high school a few decades from now.
